NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION  
STATE POLLUTION DISCHARGE ELIMINATION SYSTEM  
(SPDES) DISCHARGE PERMIT

Special Conditions.  
(Part I)

This SPDES Permit is in compliance with Title 8 of Article 17 of the Environmental Conservation Law of New York State and in compliance with the provisions of the Federal Water Pollution Control Act Amendments of 1972, P.L. 92-500, October 18, 1972, (33 U.S.C. §1251 et. seq.) (hereinafter referred to as "the Act").

Ultramar Petroleum Inc.  
135 Chestnut Ride Road  
Montvale, NJ 07645      Attention: D. Coleman

is authorized to discharge from the facility described below:

Ultramar Petroleum Inc.  
498 Kingsland Avenue  
Brooklyn, NY 11222

into receiving waters known as:

Newtown Creek      Lat. N. 40° 44' 10"  
Long. W. 73° 56' 30"

in accordance with the effluent limitations, monitoring requirements and other conditions set forth in this permit.

This permit and the authorization to discharge shall expire on midnight of the expiration date shown above and the permittee shall not discharge after the expiration date unless the permit has been renewed, or written authorization is given by the Department. In order to receive authorization to discharge beyond the expiration date, the permittee shall submit such information, forms, and fees as are required by the Department of Environmental Conservation no later than 180 days prior to the expiration date.

By Authority of

Regional Permit Administrator  
Designated Representative of Commissioner of the  
Department of Environmental Conservation

EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

ring the period beginning EDP  
d lasting until EDP + 5 years  
e discharges from the permitted facility shall be limited and monitored by the  
mittee as specified below:

Effluent Parameters	Discharge Limitations		Units	Monitoring Reqmts.	
	Daily Avg.	Daily Max.		Measurement Frequency	Sample Type
Oil Low*			GPD	Monthly	Instantaneous Oil
and Grease		15	mg/l	Monthly	Grab**
H (Range)	6.0 - 9.0		SU	Monthly	Grab

he following substances are presently below water quality and technology-based  
equirements. These limits may be modified upon proper notification by the permittee.

benzene	***	mg/l	Quarterly	Grab
toluene	***	mg/l	Quarterly	Grab
ylene	***	mg/l	Quarterly	Grab

\*The total of these shall not exceed 0.1 mg/l.

Exceedance of this value shall require notification and verification sampling, and  
if appropriate, revised application. These reported levels shall not abrogate and of  
the permittees' liability under Section 311 of the Clean Water Act.

\*Monitoring Requirement Only

\*\*One, two, or three samples may be collected and analyzed per storm event. The  
samples will be grab samples obtained at 15 minute intervals with the primary sample  
collected during the first 15 minutes of discharge. [If more than one grab sample  
is collected and analyzed per] storm event, the number reported will be the arithmetic  
average of the separate analysis.

PROHIBITIONS:

No wastes or wastewater generated at locations other than at this  
facility are to be treated at the facility except tank test water  
or tank bottoms from gasoline or light fuel oil storage tanks.

No industrial or manufacturing process wastewater effluents are  
permitted, including wastewaters resulting from vehicle maintenance  
or washing operations.

SPECIAL CONDITION:

The permittee shall also comply with all Water Quality Regulations  
promulgated on October 15, 1977 by the Interstate Sanitation  
Commission, including sections 1.01 and 2.05(f) as they relate  
to oil and grease.

Calculation of Daily Average and Daily Maximum

The daily average discharge is the total discharge by weight or in other appropriate units as specified herein, during a calendar month divided by the number of days in the month that the production or commercial facility was operating. Where less than daily sampling is required by this permit, the daily average discharge shall be determined by the summation of all the measured daily discharges in appropriate units as specified herein divided by the number of days during the calendar month when the measurements were made.

The daily maximum discharge means the total discharge by weight or in other appropriate units as specified herein, during any calendar day.

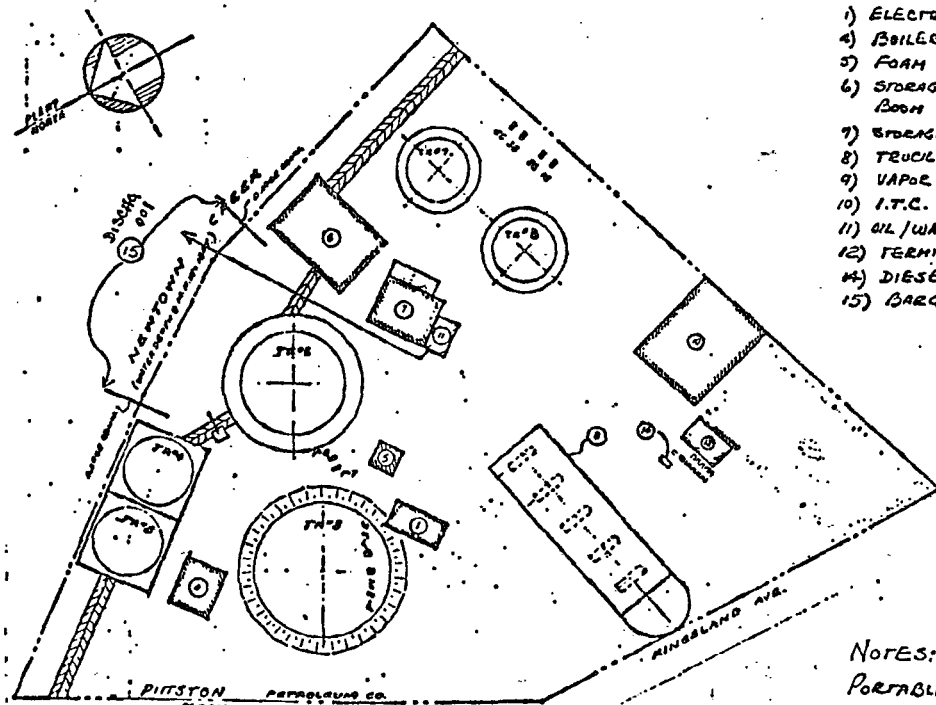

Monitoring Locations

Permittee shall take samples and measurements to meet the monitoring requirements at the location(s) indicated below: (Show locations of outfalls with sketch or flow diagram as appropriate).

REVISED 1/25/83

## MONITORING, RECORDING AND REPORTING

a) The permittee shall also refer to the General Conditions (Part II) of this permit for additional information concerning monitoring and reporting requirements and conditions.

b) The monitoring information required by this permit shall be:

- ☐ Summarized, signed and retained for a period of three years from the date of sampling for subsequent inspection by the Department or its designated agent.
- ☒ Summarized and reported by submitting a completed and signed Discharge Monitoring Report form once every month(s) to the locations specified below. Blank forms available at department offices listed below. The first report will be due no later than EDP +30 days. Thereafter, reports shall be submitted no later than the 28th of the following month(s): Each month

New York, New York 10278

c) If so directed by this permit or by previous request, Monthly Wastewater Treatment Plant Operator's Reports shall be submitted to the Regional Engineer and county health department or county environmental control agency specified above.

d) Monitoring must be conducted according to test procedures approved under 40 CFR Part 136, unless other test procedures have been specified in this permit.

e) If the permittee monitors any pollutant more frequently than required by the permit, using test procedures approved under 40 CFR 136 or as specified in the permit, the results of this monitoring shall be included in the calculation and recording of the data on the Discharge Monitoring Reports.

f) Calculations for all limitations which require averaging of measurements shall utilize an arithmetic mean unless otherwise specified in the permit.

g) Unless otherwise specified, all information recorded on the Discharge Monitoring Report form shall be based upon measurements and sampling carried out during the most recently completed reporting period.

h) On or after April 1, 1984, any laboratory test or sample analysis required by this permit for which the State Commissioner of Health issues certificates of approval pursuant to section five hundred two of the Public Health Law shall be conducted by a laboratory which has been issued a certificate of approval. Inquiries regarding laboratory certification should be sent to the Laboratory Certification/Quality Assurance Group, New York State Health Department Center for Laboratories and Research, Division of Environmental Sciences, The Nelson A. Rockefeller Empire State Plaza, Albany, New York 12201.
